From: Shirzai Institute of Information Technology and Management Kandahar Afghanistan

To: US Forces in Kandahar

Date: March 29, 2004

Sirs,

We are pleased to thank you for the 200 pens you sent to us through Mr. Akhtar Mohammad, your interpreter, who also assists us in teaching English. Your this generous assistance will increase our students' interest in learning computer and English.

We distributed the pens among our young girl students and there were a lot of smiles on their faces and we told them who had donated them. Akhter Mohd., however, said that the pens were meant for younger students, but sorry, I, some teachers and some other adult students grabbed a few, only 20 as we liked the lockets, color and shape. It is ok if I grabbed one for the reason that I am bad in keeping/maintaining a pen. I always lose them. But why did the teachers do so. Maybe they have the same problem.

May I thank you once again for this assistance and may God flourish best mutual relation between Afghanistan and the people and the government of the United States.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ehsanullah O. Ehsan'.

Ehsanullah O. Ehsan
Director of Shirzai Institute
