5. May 2003

Ann M. Sobolewski, Chair
Plympton Planning Board
5 Palmer Road
Plympton, MA 02367

Dear Ms. Sobolewski,

We are writing with respect to the citizen's Zoning Bylaw amendment petition "Lighting Systems and Fixtures" which is slated to appear on the May 14th Town Meeting warrant.

The Plympton Historical Commission supports the need for lighting control in order to protect the historic character of Plympton. We strongly encourage the Planning Board to consider the language of the bylaw and the processes by which this is achieved in order to maximize protection in the near and long-term.

We appreciate the opportunity to provide this comment for consideration at your May 6th hearing. Please do not hesitate to contact the Commission with any questions.

Sincerely,

Jon K. Wilhelmsen
Chair, Plympton Historical Commission
