As your Candidate for Board of Selectmen, I have the courage to change things, intelligence to make decisions, accept fresh ideas, and think outside of the traditional box. Times are changing and so must we if we are to survive as a community we need to, encourage new business in our town to aid our tax base. Encourage more people to participate in town decisions, review the existing bylaws and bring them up to date, encourage consistent and fair treatment of all residents.

As your selectperson, I hope to demonstrate the necessity of you, as a Plympton town member, taking an active interest in the decision making process that is going on around you. The board of selectman is not an institution that runs independently; rather, it depends on the residents of our communities' ideas and input in order to make a difference. We need to review the existing by-laws and bring them up to date. We need to find ways to jump start business in our town in order to aid our tax base. Most importantly, we need to encourage equal treatment for all residents and we need all our voices heard. Innovation is the only way to remedy any problems the town may be having, and that is what will allow us to make way for a brighter future in Plympton.
